

# SELF.Y

SELF.Y: your smart collaborative cleaning partner

# We can't predict, but we can engineer cleaning!

For years we have looked outwards at devices and tech standards to guide our work. But what if we change that view inwards and focus instead on the common thread that glues it all together: our floor scrubbers. From this was born SELF.Y, that is our cleaning concept of the future, and your new smart collaborative cleaning partner.

Let's explore many of the SELF.Y abilities that define how we use technology to make cleaning operations easier.

## THE MAIN FEATURES OF THE NEW SELF.Y:

- Designed to support extremely safe collaboration between you and your SELF.Y
- You can teach your SELF.Y the tasks, no coding skills needed
- SELF.Y combines performance and productivity to take your cleaning tasks to the next level
- Incredibly agile

- Easy to set up, even beginners can use it
- Touch screen display
- Simple and intuitive interface

Solution tank:

**50 l**

Autonomy:

**2h**
